HYUNDAI IONIQ 5

Installation manual

Hyundai Ioniq 5

Plug & Play Sound Upgrade

Tools

Trim removal tool or
A flat screwdriver with some electrician
tape to avoid scratching the plastic cover.

What's in the box

BRS Plug & Play harness

Musway M6V3 Amplifier
Preconfigured

Video

Scan the code with your phone camera to see our
installation video. It's in Norwegian, but give you
an idea.

We recommend watching the video first.

1 Component placement

Illustration showing where you should place the components.

2 Loosen the rubber list

Loosen the rubber list by lifting upwards

Do not remove the list completely, only the bottom part.

Installation manual

Hyundai Ioniq 5

Plug & Play Sound Upgrade

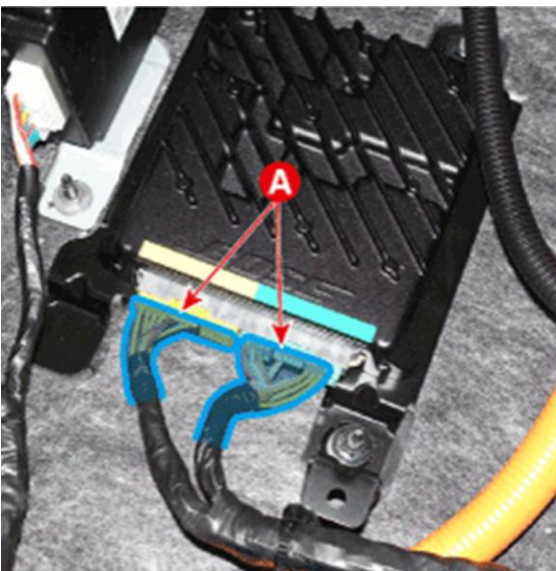

3 Disassembly

Remove the bottom cover by lifting the cover upwards. Use a tool to loosen it from the clips.

4 Connections

Lift the carpet to get to the original amplifier

Unplug both plugs on the original amplifier and pull them out.

Installation manual

Hyundai Ioniq 5
Plug & Play Sound Upgrade

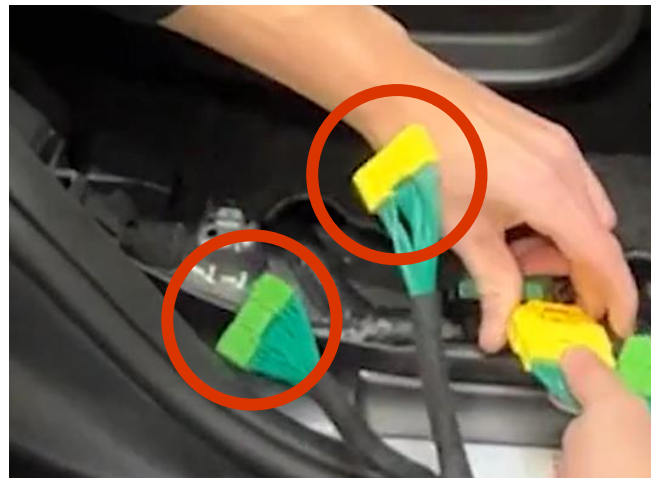

5 Connections

Plug the cable set included in the upgrade package into the plugs you dismantled.

6 Connections

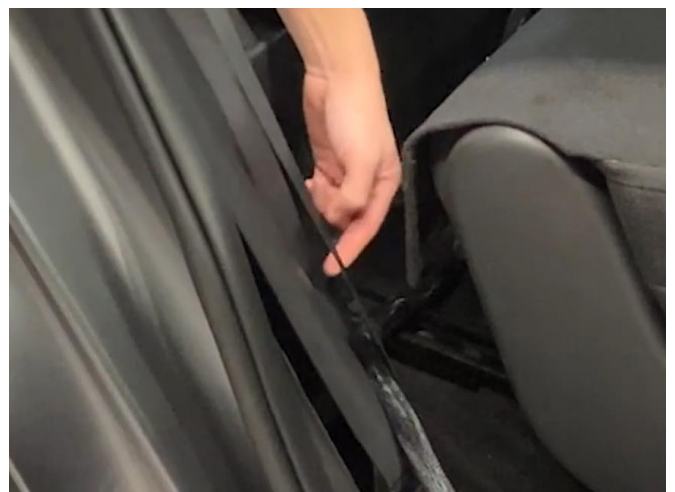

Plug the other end of the cable set back in to the original amplifier under the seat.

7 Harness placement

Move the seat all the way forward and tilt the seat back down.

Flip forward the cover under the seat belt.

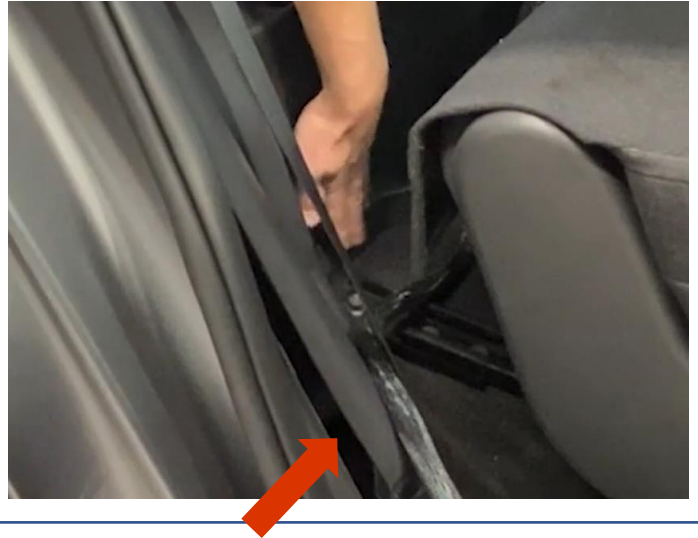

Installation manual

Hyundai Ioniq 5
Plug & Play Sound Upgrade

8 Harness placement

The cable is pulled behind the cover and laid forward behind the seat.

9 Connection

Connect the 3 plugs to the Musway amplifier

10 Placing the amplifier

Place 2 long strips with Velcro on the underside of the amplifier.

This is probably already done on your amp.

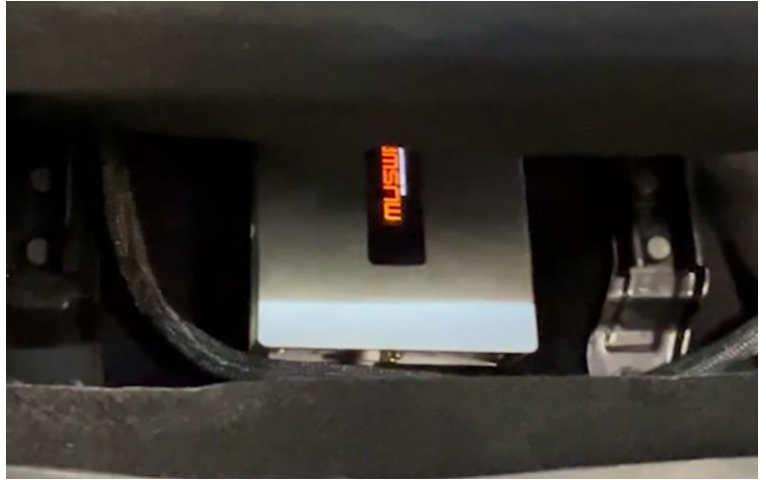

Installation manual

Hyundai Ioniq 5
Plug & Play Sound Upgrade

11 Place the amplifier

The amplifier is placed under the seat and pressed down firmly so that the velcro holds it firmly in place

12 Reassemble

Refit the cover.

Then you're done!

13 Information

If the sound is not as it should be, you can check that the following settings are correct

Both white dots should point straight up

14 Settings

We have set up the package with the following settings on the car radio in the car.

You can, of course, adjust this, but we must ask for consideration in the event of major changes here. More power has been added and the speakers can then be damaged more easily at high volumes

Installation manual

Hyundai Ioniq 5

Plug & Play Sound Upgrade

All speakers are damaged by abuse. Be careful not to play too loud so that the speakers' coil is burned off. It is not covered by warranty or complaints
