

THUNDER 20000

20000mAh Portable Charger

THE EXTRA COMPACT POWER BANK

THUNDER 20000 is the portable charger with the best capacity and size ratio: made with next-gen cylindrical cells, are able to store greater capacity in small volumes, allowing multiple full recharges of the device without compromising the portability of the Power Bank.

Thanks to the advanced technologies which is equipped with, this portable charger ensures high charging performance: **USB-C Power Delivery 20W** guarantees the maximum charging speed for the new generation iPhones (iPhone 12 to later), **USB 18W** Adaptive port, to fast charge Samsung, Huawei and other Android devices.

The design is studied to offer excellent performance: the non-slip coating and cover made from soft-touch material give it a solid grip and make it pleasant to the touch.
