

EDUPRO6SPL-E5
PRO MIDRANGE SPEAKER
UNLIMITED • LOUD • REVOLUTIONARY

Brace yourself—the all-new Unlimited Series Pro Audio Midrange Drivers are here, and they’re rewriting the rulebook on what midrange power should be. They are the most powerful midrange speakers to hit the EDGE line-up, ever.

Built on the legacy of the original EDU Pro midrange, the new Unlimited SPL Series takes everything you loved and cranks it to the extreme. We’ve kept the blistering 100dB+ sensitivity, but added a beefed-up magnet and motor assembly, a re-imagined “warhead” phase plug, and refined internal upgrades that elevate every note with surgical precision and brute force.

With over 500W RMS power handling and monster motors that rival some sub-woofers, these mids don’t just play loud—they dominate. Shrugging even the loudest playback with ease.

Model	EDUPRO6SPL-E5
Configuration	1-way
Speaker Size	6.5" (165mm)
RMS Power	500W
Peak Power	1000W
Sensitivity	99dB
Frequency Response	100Hz - 9kHz
Impedance	4Ω
Mounting Depth	2.9" (74mm)
Mounting Diameter	5.7" (145mm)

BRAND NEW TECHNOLOGY - The new EDUPRO6 and EDUPRO8 drivers feature our brand new deep projection dust caps that act as a phase plug and heat sync for the voice coil. Increasing on axis response while also increasing power handling

HIGH EFFICIENCY - With a sensitivity starting at 99dB for the 6" driver and reaching 100dB for the 8" driver this pro audio midrange is capable of producing extremely potent audio reproduction with ease.

PRO AUDIO SOUND - The EDUPRO6/8 offers a wide frequency response, paired with a high sensitivity as well as a respectable power handling making it the perfect candidate for a driver being used in Pro Audio applications.

SIGNATURE STYLING - The edge EDU Pro speakers feature edges signature styling with orange edge accents, aggressive styling and custom tooled gasket.

SPADE TERMINAL

Pro audio drivers are designed specifically for high output in SPL and competition audio systems.

PRO AUDIO

Pro audio drivers are designed specifically for high output in SPL and competition audio systems.

WARHEAD PHASE PLUG

New edge warhead projection phase plug equalizes and smooths midrange response while increasing thermal power handling.

FOAM SURROUND

Dual roll foam surround to help improve the lower end of the speakers midrange response.

TORSION BASKET

Angular torsion basket for increased rigidity and support for the huge motor structure of the speaker.

Y35 FERRITE MAGNET

Powerful Y35 ferrite magnet provides extreme motor force for high SPL applications.
