

CLUB SERIES SUBWOOFERS SHALLOW ENCLOSURES

10" (250mm) & 12" (300mm) Club Shallow Subwoofer Enclosure.

Club shallow subwoofer enclosure.

JBL's Club 10" (250mm) and 12" (300mm) shallow subwoofer enclosure have been engineered using a sealed enclosure with down-firing Club shallow subwoofer and passive radiator. This approach delivers tight, accurate bass performance while taking up minimal space for installation into a broader variety of vehicle types and locations. The enclosure is designed with removable feet which allows for flexible placement direction to get best performance and optimize space per vehicle type. A removable logo badge is included allow you to put anywhere you like. Enclosure's sturdy medium-density fiberboard construction and rugged black carpet covering allows it to resist stacking weight and take a beating. A metal bracket set also provided if customer would like to fix it tight in a vehicle.

Features

- ▶ Down-Firing Sealed Enclosure with a Passive Radiator
- ▶ Removable Feet
- ▶ Removable Logo Badge
- ▶ Built Tough

CLUB SERIES SUBWOOFERS SHALLOW ENCLOSURES

10" (250mm) & 12" (300mm) Club Shallow Subwoofer Enclosure.

Features and Benefits

Down-Firing Sealed Enclosure with a Passive Radiator

JBL Club shallow enclosures are engineered with sealed, down-firing type and loaded with a passive radiator subwoofer and new Club shallow subwoofers. Such a design brings tighter, more accurate bass and takes up little space.

Removable Feet

JBL Club shallow enclosures are designed with removable feet which allows for flexible placement direction to get best performance and optimize space per vehicle type.

Removable Logo Badge

JBL Club shallow enclosures are designed with a removable logo badge so you can put anywhere you like.

Built Tough

JBL Club shallow enclosures are designed with sturdy medium-density fiberboard construction and rugged black carpet covering to resist stacking weight and take a beating.
